Notification from Wairakei Golf + Sanctuary – November 2021

To minimise the transmission of Covid 19, Wairakei Golf + Sanctuary is considering a policy that will restrict access for unvaccinated people from the Clubhouse, Pro Shop, Cart Shed, including the bathroom facilities connected to these buildings. An exact date will be determined once we have our systems in place and the government confirms the digital vaccination certificate, the new policy could take effect 1st December.

The new policy will apply to all customers, staff and contractors, proof of vaccination status will be required. For people exempt from being vaccinated because of medical reasons, evidence of the fact will be required.

To be clear, all players (vaccinated or not) will be allowed to play golf at Wairakei, but only fully vaccinated customers will be allowed access into the buildings as mentioned above.

We appreciate your patience and assistance while we work towards keeping everyone safe.
