Wairakei Golf + Sanctuary Vaccination Policy for December 2021

In response to the move to the Covid 19 Protection Framework (Traffic Light System), Wairakei Golf + Sanctuary will be implementing a vaccination policy.

As of Friday 3rd December, a vaccination pass will be required to enter any building on the premises. This will include Clubhouse cafe/bar/deck, Pro shop, Cart Shed and the bathroom facilities connected to these buildings.

Unvaccinated players will be able to play and a contactless processing procedure will be in place outside the entrance of the Pro shop. Temporary bathrooms will be available near the Pro shop and the on-course bathrooms will be designated for vaccinated and unvaccinated customers.

This policy has been adopted to allow us to operate all facilities as close to normal under the current government requirements.

The policy will be reviewed and possibly amended on 1st January 2022.

We will endeavour to make the check in/entry process as efficient as possible, however patience and understanding will be required.
